Medical and Dental – Seat Allotment - NOTE on Seat Cancellation

Candidates who had been allotted seats in both MCC and KEA counseling—and who were willing to accept the seat allotted through MCC—were previously given sufficient time to select 'Choice-4' and exit the KEA counseling process; afterwards, the second round of seat allotment was conducted by taking such cancelled seats, and the final results were published on 16-09-2026.

However, after the announcement of the second-round results, some candidates are now requesting the cancellation of their KEA-allotted seats, citing various reasons and intending to accept seats allotted through MCC or within their respective states. Therefore, KEA is providing a window to exit the counseling process from 4:00 PM on 17-09-2026 to 5:00 PM on 20-09-2026. Seats surrendered in this manner will be considered for third round of seat allotment.

Further, candidates who were not allotted seats in the MCC counseling process but wish to cancel their KEA allotment may cancel as detailed below (details are already provided in the information bulletin). Candidates who cancel their medical / dental seats in this way may participate in the third round of medical and dental counseling, if interested (subject to applicable conditions).
